

## Repair. Restore. Renew Your Skin

The beauty of a flower comes from its petals. With time, the petals fade and lose their vitality. *Has your skin become like a petal that's lost its vibrance?*

In one treatment, the **xeo® skin resurfacing** procedure can dramatically turn back years of accumulated sun damage, wrinkles and age spots, and restore your confidence again.

With a single treatment, you can see visible improvement in:

-  Deep-set wrinkles
-  Sun-damaged skin
-  Age/brown spots
-  Scars

Let your skin blossom with confidence.

## Next-level Skin Resurfacing

Ask your skincare professional how **xeo® skin resurfacing** offers the ultimate blend of speed and efficacy.

consultation!

Let Your Skin  
Blossom with  
Confidence

## Diminish Years of Damage... in a Single Visit

Over your lifetime, years of accumulated damage from sun exposure and pollution build up on your skin, manifesting in the form of wrinkles, brown spots, pigmentation and overall dullness.

Using powerful laser energy, **xeo® skin resurfacing** immediately goes to work to remove unwanted skin damage in a single treatment. Prepare to experience dramatic “wow” results that only a powerful laser like **xeo®** can deliver.

## Repair & Restore Your Skin

**xeo® skin resurfacing** uses laser energy to target and resurface damaged skin. The laser energy stimulates the skin's cells, prompting the body's self-renewal properties to eliminate the damaged cells and generate new, healthy skin.

During treatment, you may feel a series of quick, hot pinches, followed by minimal downtime. Ask your skincare professional how to make your procedure more comfortable with a topical numbing agent.

Best of all, this minimally invasive procedure works on all patients from light to medium skin tones with multiple skin aging concerns...in a single session.

## Renew Confidence in Your Skin

Patients everywhere are lauding the dramatic results they're experiencing with **xeo® skin resurfacing** and feeling the effects of renewed confidence. Trade in the signs of sun damage—age/brown spots and deep-set wrinkles—with a softer, smoother and more supple quality to your skin.

To find out if **xeo® skin resurfacing** treatment is right for you, schedule a consultation with your skincare professional today.
